Troubleshooting

Symptoms	Solutions
Not operating.	Use the product when electricity is restored.
	Reconnect the power cord.
	Turn on the power switch.
No heating after pressing the heat switch.	Press the Tapping & Rolling switch before turning the heat switch.
	Press the Tapping & Rolling switch before turning the heat switch.
During operation, the controller is working but the massage is not working.	The massage motor is overheated after prolonged use. It will automatically cool down to resume its normal condition. Please turn off the power and stop using the massager for 30 to 60 minutes to facilitate heat dissipation of the motor.
Back massage function does not work.	Turn on the power switch.
	Reconnect the power cord.
Sudden stop.	Use the product when electricity is restored.
	Reconnect the power cord.
