Important Safety Instructions

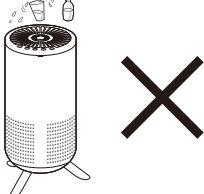

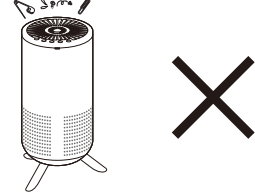

⚠ **IMPORTANT SAFETY INSTRUCTIONS** READ AND SAVE THESE SAFETY INSTRUCTIONS BEFORE USING THIS AIR PURIFIER

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

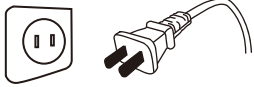

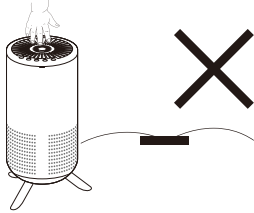

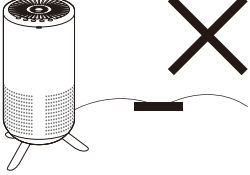

- Read all instructions before operating the air purifier.
 - Place air purifier where it is not easily overturned by persons in the household.
 - **ALWAYS** turn the air purifier controls to the OFF position and unplug from the wall outlet when not in use.
 - To disconnect the air purifier, make sure the unit is powered OFF then grip the plug and pull it from the wall outlet. **NEVER** pull by the cord.
 - **DO NOT** use any product with a damaged cord or plug, any product that malfunctions, or any product that has been dropped or damaged in any manner. Keep the cord away from heated surfaces.
 - **DO NOT** use air purifier outdoors.
 - **DO NOT** use air purifier unless it is fully assembled.
 - **DO NOT** run power cord under carpets, and **DO NOT** cover with throw rugs. Arrange cord such that it will not be a tripping hazard.
 - **DO NOT** use air purifier where combustible gases or vapors are present.
 - **DO NOT** expose the air purifier to rain, or use near water, in a bathroom, laundry area, or other damp location.
 - The air purifier must be used in its upright position.
 - **DO NOT** allow foreign objects to enter ventilation or exhaust opening as this may cause electric shock or damage to the air purifier. **DO NOT** block air outlets or intakes.
 - Locate air purifier near the power outlet and avoid using an extension cord or power strip.
 - This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit only one way in a polarized outlet. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. **DO NOT** attempt to defeat this safety feature.
 - A loose fit between the AC outlet (receptacle) and plug may cause overheating and a distortion of the plug. Contact a qualified electrician to replace loose or worn outlet.
 - **DO NOT** sit, stand, or place heavy objects on the air purifier.
 - Disconnect power supply before servicing.
 - **SAVE THESE INSTRUCTIONS.**
- ⚠ **WARNING: To Reduce The Risk of Fire or Electric Shock, Do Not Use This Air Purifier With Any Solid-State Speed Control Device.**
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
 - Children should be supervised to ensure that they do not play with the appliance.
 - If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
