## Beauty Circulation Method

Your skin is constantly rejuvenating itself in order to remain in healthy condition. Our facial lifting massager is designed to focus especially on this cycle. This skin care device helps you to "press down" and "pull up" your skin while caring for it, bringing out your beauty even more. It is all about the Beauty Circulation Method- a method that brings you the polished, shiny skin you deserve.

## [GUASHA] --- A Time-Honored Traditional Eastern Beauty Treatment

Our lifting massager is a beauty treatment that uses a special place to press down and pull up the skin. This treatment is said to have been in use for over 2,000 years. The massager is a fusion of the wisdom of [Guasha] from the Orient with Microcurrent and Ion Skin Care electrotechnologies. These three approaches bring beauty to the inside and the outside of our skin. The treatment was widely loved by the most beautiful empresses in renowned palaces as well as by ordinary folk. With some unique refinements, it is now attracting attention as a novel beauty technique.

## Product Efficacy & Features

### 1. Microcurrent

'Microcurrent Mode' keeps skin looking sharp while the massager flows along your face.

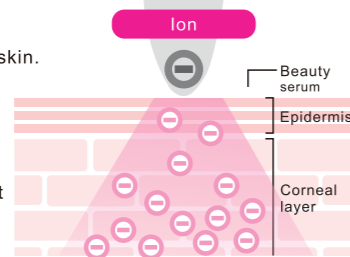

The slight electric current that flows through our skin is said to be essential for maintaining beautiful skin. The microcurrent produced by the massager is extremely similar to this bioelectric current. The massager cares for your facial contours, bringing you more defined features with firmer skin.

### 2. Ion Skin Care Mode

'Ion Skin Care Mode' helps deliver the moisturizing ingredients to your deep skin.

The power of electricity is used for ion skin care which helps delivery the moisturizing ingredients to your deep skin. The massager provides skin treatment while lifting up your facial skin, giving you a fully youthful, lustrous look.

### 3. Comfortable gentle vibration

The massager vibrates when each mode starts

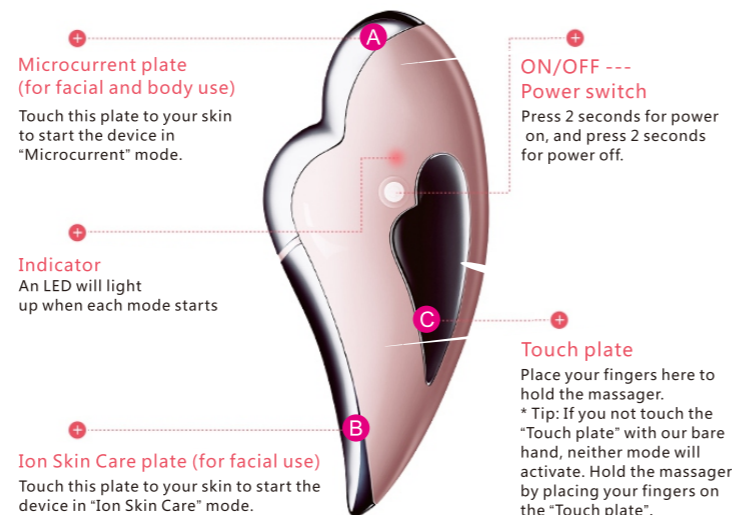

### 4. Featuring both superior function and beautiful design

This massager features advanced electrotechnology that allows you easily activate the device with single touch. Thin, lightweight, yet still highly functional, it is stylishly designed with an eye beauty.

### 5. Whole set waterproof
